

## Featured Lighting Projects

ArcSine Engineering has worked on numerous lighting projects in California and Oregon. These have included parks, streetscapes, and sports facilities. For these projects, we worked closely with landscape architects and civil engineers. Our services have included lighting, electrical, controls, power distribution design, and construction services. Below is a list of some of the projects ArcSine has been involved in.

Electrical  
Lighting  
Power Distribution  
Construction Services  
Controls

Location	Project	Client
